Profile

A passionate and detail-oriented Software Engineering student with a strong foundation in programming, problem-solving, and software development life cycle. Proficient in languages such as Java, Python, and JavaScript, with hands-on experience in building web applications and working with databases. A quick learner with excellent teamwork and communication skills, actively seeking opportunities to apply technical knowledge in real-world projects and grow as a software developer.

Experience

Trainee in Computing

Base Hospital Akkaraipattu

Aug 2023 – Dec 2023

Worked as a computing trainee at Base Hospital, where I assisted in IT support, helped manage patient data systems, and gained hands-on experience with hospital software, networking, and daily tech operations.

Future Leadership

Eminence College of Science and
Technology

Jun 2023

Participated in a leadership development workshop focused on communication, teamwork, decision-making, and problem-solving skills to prepare for future leadership roles.

Management

axis Academy

Dec 2024

Attended a workshop focused on leadership, time management, team coordination, and effective decision-making. Gained insights into project planning and communication strategies in organizational settings.

Skills
